City Council To Examine Model Cities Project Cost Boost

At its Tuesday night meeting last week the Tacoma City Council deleted from its agenda a resolution that would have increased funding for the Model Cities' first project, the improvement of Ferry Park, by $8,650 to $29,500.

The deletion was recommended by City Manager William V. Donaldson. He said more time was needed to study the proposal.

The additional funds include $5000 of playground equipment, sidewalks, and lights.

Donaldson indicated he wanted to study the original contract to determine why these facilities had not been included.

Ebony Construction Co., contractors for the project, told the Model Cities Executive Board that is mistakenly underbid the project. The original contract awarded to Ebony Contractors was for $20,800. The Board then voted to ask the City Council to add $5000 to Ebony's contract.

However, the city attorney's office has declared that such an addition to the contract would be illegal.

Tacoma Mall To Expand

The Tacoma Mall Corp; announced recently that a major expansion of the Mall is planned in the near future. Twenty five new stores are to be built and an existing store, Nordstrom-Best, will be expanded.

Construction of the new buildings is to begin in January. It is planned that the new stores can go into operation in early 1973.

Nordstrom-Best has meanwhile announced its intentions of building a second floor on its existing structure to increase its overall size by about a third.

In a related development, owners of the Tacoma Mall Office Building announced plans to build a second office building north of their present building. Construction on that project is due to begin next spring.

Overall cost of the new twenty-five store expansion is set at about $2,500,000. Approximately two hundred persons will find employment in the expanded Mall.

Model Cities Foursome Journey To Washington

Four Tacoma Model Cities officials left the city to journey to Washington, D. C. last week. Included in the group are Frank Russell, Model Cities Chairman, and Alberta Adams of the Model Cities Staff.

Accompanying them are Maurice Alexander and Al Bradley of the Model Cties Executive Board.

While in Washington the group will meet with HUD officials. Model Cities officials in Tacoma would only say that the trip was intended as a routine exchange of information. While in Washington, the Tacoma foursome hope to get better informed on current HUD programs that may be applicable to Tacoma. Those involved are scheduled to report on their progress in Washington upon their return.

THE MESSENGER by Bro. Michael X. Woods

For many of years the Earth has been misguided by a new race of people who was created to test the original inhabitants of the planet Earth. Never before had we ever been tested under such wickedness, (just look at the shape the Earth is in). This new creation of people have mislead the whole world. They have our Brothers and Sisters waring against each other all over the world. It is a very old trick-devide and conquer, but as the scriptures teaches that we are blind, deaf, and dumb. The test is over,the time has come my Brothers and Sisters for you and I to return to our rightful place as Kings and Queens under the richeous guidance of Almighty God Allah. We the Muslim followers of the Honorable Elijah Muhammad, forever thank Allah for raiseing up our beloved teacher and devine guide, who has truely proven beyond a shadow of doubt that he is the last Messenger to us all. Almighty God Allah, realize the condition that we the so-called American-Negros are in, so therefore he has sent a Messenger bearing a life giving message which will guide us back unto the road of Freedom, Justice and Equality.Brothers and Sisters, the Honorable Elijah Muhammad is a devinely appointed man, his mission is only to bring the truth to the world. It is to you wheather you except it or reject it. If reject the Messenger of God who bears God's Message, then you are rejecting God, and surely you will receive a just reward for your deeds. Brothers and Sisters this devil race of people has conditioned us in such a way all down through history that now we are unable to recognize our salvation. Check out the Message that the Messenger has brought. Visit your local Mosque at 1108 So23rd. Street, Wednesday and Friday at 8:00 p.m. and Sunday at 2:00 p.m. It is all up to you.

The Mis-Use Of The School Lunch Program

Below appears a copy of a form sent to parents of the students in the Tacoma School System. It deliberately divides all children AND PARENTS into social and financial classes. NO school lunch program can exist, at present levels, without enormous Federal surplus help.

EACH taxpayer supports that Federal Surplus program. It is only fair and a correct procedure to make all school lunches equal. IF THE SYSTEM CAN AFFORD TO CARRY, FREE, THE CHILDREN OF THOSE THAT CONTRIBUTE THE LEAST ... THEN IT ALSO CAN AFFORD FREE FOOD FOR THOSE THAT CONTRIBUTE THE MOST! Aside from that it is COMPLETELY WRONG TO PLAY "CLASS" AND "POLITICS" WITH FOOD NEEDED FOR CHILDREN!

This is the type of "mis-handling" and poor "public relations" that make a complete mockery of such things as the "bussing " of children. IF - YOU ARE BLACK AND POOR, YOU MUST STAND IN THE "FREE" LINE AND WATCH RICH WHITE KIDS EAT A BETTER LUNCH THAN YOU HAVE! THAT IS TRUE EQUALITY ... AFTER YOU HAVE BEEN ON A BUS FOR SEVERAL HOURS TO GET TO YOUR "BETTER" SCHOOL!

NEWS FROM TACOMA COMMUNITY

Appointment of three persons to work in Tacoma Community College's federally funded program to bring educational services to low-income housing communities has been authorized by the TCC Board of Truestees.

They are:

-- Mrs. Carlane Joyce Ollee, appointed assistant for instruction and development.
-- Tommy Lee Hilyard, assistant for instruction and development.
-- Nolan Lee Osher, assistant for research and evaluation.

Mrs. Ollee holds a bachelor of science degree from Grambling College.

Mr. Hilyard holds a bachelor of arts degree from Western Washington State College.

With bachelor's and master's degrees from the University of Montana, Mr. Osher is a Ph. D. candidate at Washington State University.

The appointments are for one year. The project is funded by the Department of Health, Education and Welfare and is to be carried out by TCC in cooperation with Model Cities and Conifer Development Inc.

Project director is Gerald A. Vaughan.

LETTER TO THE EDITOR:

You be the judge and form your own opinion. When Model City, was first mentioned in Tacoma we heard, various opinions, as to the pros and cons of this program. Since the program has been in effect, there has been, to much misunder standing about the operation of this program.

I was so confused, about hearing so many different view points, on the operation and purpose of the Model City program, that I wrote several letters to Mr. George Romney the Secretary of Housing and Urban Development, in Washington D. C. as to the nature and purpose of the Model City program.

I have submitted copies of the 2 letters that I am going to quote from, to the Tacoma Facts newspaper. From the letter of September 26, 1969 it states as follows: "In my previous response to you I indicated that the Model Cities Program is for the benefit of all residents of the Model neighborhood, regardless of race, creed of color. I also explained that the Federal government is strictly opposed to the conscious development of segregated enclaves of any kind.

From the letter of March 16, 1971 it states, "While we can appreciate the strong community feelings that arise over various issues during the development and operation of a local Model Cities program, we expect the City to deal with the problems at the local level and to develop and operate the most effective possible program for the benefit of all residentsof the Model Neighborhood."

"I would like to emphasize that the ultimate responsibility and authority for final decisions regarding the local Model City program lies with the officials of local government."

This is the end of the quotes from the letters.

I think that the Tacoma City Council, should clear the air of any misunderstanding, by having a public hearing, that was to be broadcast to the public besides printed in the newspaper, as to the complete rules of operation, of the Tacoma Model Cities Program. The only people that would be allowed to speak, would be the ones that have notorized statements to present and not just there own personal opinions.

Sincerely yours
John P. Zelenak

The following statement was issued by Ralph Thorpe, the chairman of the Committee to Save Our Fish. The Committee is made up primarily of white sports fishermen who are opposed to Indian fishing practices on the Puyallup.

(In an effort to present a balanced view of the critical issue, the Tacoma FACTS has solicited a statement from Puyallup Indian leader stating their side of the matter. Their position will be printed in the FACTS next week.)

"Unless the Puyallup Indians realize the damage they are doing to the runs of fish in the Puyallup River and abide by the state regulations, they as well as the sportsmen are going to lose a fishery resource on the Puyallup.

"It is our opinion that this net fishery has gone past tradition or ethnic background. In our opinion it is strictly monetary. It also is going to be impossible to put enough salmon in the Puyallup to supply an adequate income for the Indian and still have enough spawning salmon to supplement the river system."

"This committee's position is that unregulated net fishing by anyone on a short-run river like the Puyallup is the wrong gear, the wrong place and the wrong time.

"We are not an anti-Indian group; we are a pro-fish group.

"We think the Fisheries Department and the state should be involved too.

"Last year Indians fished according to state regulations and caught in excess of 20,000 fish. The hatchery return was desirable. We got what was needed for escapement. It seems only feasible that the Indians should try to fish according to state regulations. The state set these regulations and they feel they are real and necessary for conservation.

"The Justice Douglas decision and the State vs. the Puyallup Tribe say the state has a right to regulate the fishery resource to whatever is reasonable and necessary to conservation.

"Twenty-six Indians signed fish tickets last year. We feel that 20,000 salmon for 26 fishermen is a pretty good haul.

"What we are worried about is the lack of wild spawning fish in the upper regions of the Puyallup and the main stem of the river system. We asked the direc-

Let The Facts Speak:

Portland Shows The Way:

FACING UP TO TACOMA'S DRINKING PROBLEM

That's right: Tacoma's drinking problem

It's not just the thousands of Tacomans in the grips of alcoholism who have a problem. It's the city as a whole.

It's the police who spend a disproportionate amount of time attempting (with no success, we stress) to combat alcoholism in our city.

It's the courts that are clogged with drunkenness cases. And the jails, too.

And the highways and streets of Tacoma, where more than half of all accidents, too many gruesomely serious, are related to drinking.

And the staggering cost to Tacoma in terms of lost man-hours on the job, broken homes, and crime that alcoholism creates.

According to Ronald L. Hendry, chairman of the Pierce County Council on Alcoholism, alcoholism afflicts at least 18,000 men and women within the county area.

Remember that the next time you get into your car to face oncoming taffic.

How many of the over 600 deaths on the roads this Labor Day weekend could have been spared if only all of us faced up to the fact that alcoholism isn't just the alcololic's problem, that it's everybody's baby?

Because one thing is certain: attempting to meet the problem through legal channels -- through laws, and courts, and jails and fines just does not work. It's been tried for years and the result is everywhere the same: more alcoholism, more tragedies, more fines, more deaths.

In this bleak situation, a ray of hope comes from Portland. There, under a program sponsored by the federal Department of Transportation, alcoholics are given a chance to "drink" their problem away.

What they drink, however, isn't alcohol, but just the opposite. It's a drug called antabuse which makes a person nauseously ill if he takes alcohol afterwards.

The Portland system runs like this: When one of the innumerable cases of drunk driving appears before a Portland judge, a determination is made whether the person involved is a social drinker (not really an alcoholic but just someone who drank a bit too much that particular time)or a problem drinker (an alcoholic who will likely drink again after he's paid his fine or served his time.)

It's the problem drinkers, of course, that are the source of the problem and the focus of attention in Portland.

The problem drinkers are given a choice:jail and fine or treatment on antabuse.

Those who choose antabuse (and there are quite a few now in Portland) must go to a participating pharmacy each day to drink their "shot" of antabuse. (Right there and the, in front of the pharmacist.)

Cost of the drug is only 75¢ per day, paid by the government if the drinker is indigent.

It seems to us that while all the returns aren't in from Portland, our Oregon sister city is onto something we could well look into here in Tacoma.

Portland is doing something positive and constructive after the legal approach failed just as it is failing here too.

The Tacoma FACTS urges our City officials to consider setting up a similar program to Portland's here in Tacoma.

We need it.

BOYS' CLUB NEWS

The downtown Boys' Club was closed for two weeks vacation, but vacation time is over, and Fletcher Jenkins, Director, Joe Clough, P. E. Director, and Hank Rivers, Acquatic Director, are back in the swing of things with putting a fall and winter program together for the members of the Tacoma Boys' Club.

First off will be the downtown Boys' Club football teams. The club will have two teams this year, Small Fry-10 years old and under, and 80 pounds or less. Last years T.B.C. Small Frys' won the city championship and was coached by Lonnie Jones and Ralph Pettus. All boys' interested in playing Small Fry football can contact Ralph Pettus and Steve McDaniels, coaches for this years team.

The big team will be Pe Wee-12 years old and under, and 105 pounds or less. Any young boys interested in playing Pee Wee football may contact coaches Tom Mustin and William Carter. All coaches can be contacted at the Tacoma Boys Club, 711 South 25th, at Br 2-3044.

The new hours when the club will be open are Monday through Friday, 4:00 p.m. until 9:00 pm Saturdays 10:00 a.m. until 4:00 p.m. The activities that are open to the boys are swimming, indoor football, basketball, two game rooms one for the younger members and one for the older members. Also this year the Woodshop will be open every Wednesday, 4:30 until 8:00 p.m. Later on, they hope to have it open at least three days a week.

Joe Clough will start his Boxing Program about the first of December. He hopes to have a few members of the team go to the Olympics in "72". Also he hopes to have a boxing tournament sometime in December at the Boys' Club. Mr. Clough is also working on putting his Basket ball Program together for the winter.

Hank Rivers has prepared his Swimming Program for the year. His biggest project this year will be putting together a swimming team to compete against other clubs. If any groups such as Boys Scouts and churches would like to use the pool, they can contact Mr. Rivers at the club.

Also, Frank Bennett will be working with the boys who are interested in music. Mr. Bennett and some of the members have already put together a small band called, T.B.C. "Soul Control."

Mr. Fletcher Jenkins, Club Director, informed us that this will be a very active year for boys of the Downtown Tacoma Boys' Club.
